EXPERIENCE

DevPartners — Frontend Developer (Angular)

MARCH 2021 - AUGUST 2024

Build and maintain master data UI for managing large databases of the company's agency, ports, vessels etc. My role involved addressing any bugs or issues occurring on the system, integrating RESTful APIs to ensure seamless data flow between the frontend and backend.

DevPartners — FullStack Developer (React/NextJs/Tailwind/Wordpress)

APRIL 2022 - MAY 2024

Developed an IT Staff Augmentation integration tool for DevPartners company. My role involves ensuring all pages are mobile responsive. Used tailwind for precise customization and faster prototyping ensuring seamless user experiences and enhanced overall client satisfaction.

DevPartners — Frontend Developer (Angular)

FEBRUARY 2018 - MARCH 2021

Developed and implemented comprehensive CRM solutions tailored for corporate and real estate brokers. My role involved translating intricate client requirements into intuitive, efficient, and user-friendly interfaces. Conducting thorough testing with Jasmine and Karma to ensure the quality and performance of the applications. Collaborating with team members through meetings/code reviews and planning out new features or improvements.

Curacall — Fullstack Developer (Laravel/VueJS/Ionic)

MAY 2020 - FEBRUARY 2021

Developed dating site with Membership feature, Subscription plan with payment, browse/search member: Nearby members, Online members, Best Matches, Notification, and Messaging. My role involved implementing robust authentication and authorization mechanisms using OAuth and JWT. Working with Eloquent ORM, Laravel's Blade templating engine.

SKILLS

HTML / CSS / Javascript /
